

## **HARBOUR – a NEW FUTURE?**

For 12 years Harbour has served the needs of many of the disadvantaged people of Bideford. Covid-19 has meant that its old ways of working are no longer viable – in a time when social distancing is paramount.

The time has come for a fresh look at the true needs of the vulnerable and disadvantaged of our area so that they can best be served. Covid-19 has exposed this more starkly.

The existing trustees are putting out a call to other groups and individuals in the town and nearby to come together to look at both what is needed and what can be done.

Many of the trustees expect to step down from their current roles but **all** of them want to see the resources of Harbour in good hands for the future. Of course, Harbour also has an enthusiastic team of volunteers.

These resources include their premises with kitchen, offices and meeting space in Queen Street plus a legal structure if a group with compatible objectives wishes to take it over.

The first step is engagement in a conversation, or rather many conversations.

Further details will be available from Harbour on our website: -
